

Biography of Walter Chen, Ph.D., PAS

Dairy Consultant

Founder of Beijing Kaihang Management Consulting Co. Ltd

Dr. Chen was born and raised in China. He received his bachelor's degree in animal science from Southern China Agricultural University in 1986. His first job after college was working for an American large dairy farm in Guangdong China where he learnt about dairy cows and became passionate about it. In 1989, with the support from the owner of the farm, he went to the United States for graduate study and received his Master and PhD degrees in ruminant nutrition from the University of Arizona in 1992 and 1994, respectively. Dr. Chen's work experiences include managing

large dairy operations, as well as consulting and training for dairy farms both in the United States and in China. He is specialized in dairy nutrition and large herd management. He founded Beijing Kaihang management Consulting Co. Ltd in 2013. He and his team of consultants are providing dairy nutrition/management services and cloud bases dairy data management services to many dairy farms across China. Dr. Chen has also conducted numerous dairy seminars and is frequent invited speakers to many dairy meetings. He is well-known in the dairy industry because of his involvement in the USGC China dairy training program, Cornell China Dairy Institute and US-Sino Veterinary Training School. Dr. Chen has been the professional member of American Dairy Science Association since 1990 and a certified professional animal scientist by American Registry of Professional Animal Scientists (ARPAS). He is currently resided in California.
